THE NOLATO GROUP

Nolato is a global, high-tech developer and manufacturer of components and product systems made of plastic, rubber, silicone and thermoplastic elastomers. Our customers are leading players in telecom, automotive, household appliances, medical technology, pharmaceuticals, hygiene and other selected industrial segments.

The Group has a number of wholly-owned companies with sales, development and production in Sweden, China, Malaysia and Hungary, sales companies in France, Norway and Poland as well as technical and sales resources in Japan and North America.
